RULES AND REGULATIONS

The venue of the annual national conference will be decided by the governing council on the basis of merit. The state holding the national conference will not be eligible to reapply for next 10 years. Zonal rotation is preferred. Within that Zone, (let us say that as Zone A) out of the bids received, preference would be given to the state branch which has not hosted the Conference before or has not hosted the Conference for the longest period out of the bids received, provided all other criteria for selection are met. Bids can be accepted for consideration from the Zone which is next in the line (i.e., Zone B) for eligibility as per Zonal cycle of rotation. In case the bid from the eligible Zone (Zone A) is found not in order and is rejected by the GC then bids from this Zone (i.e., Zone B) would be considered as per the criteria defined earlier. The cycle of Zonal rotation from 2021 is 2021 West, 2022 North East, 2023 North, 2024 East, 2025 Central, 2026 South, 2027 West. This cycle will be maintained for future. This cycle may be modified by the Governing Council by a resolution with subsequent approval by the GBM as and when necessary, provided their bid satisfies all requirements & criteria and has facilities to hold a National Conference. The bid for hosting ISA National Conference must reach the Hon. Secretary before 31 July and will be discussed in the 2nd Mid Term GC meeting after presentation by the respective bidders. Representatives of the bidding branches must present themselves on the 2nd day of the GC with full details including blue print of the venue and halls, short video etc. The credentials and experience of the Organizing Secretary and Scientific Committee Chairperson of the ISACON should be detailed in the bid application. Shortlisted venues will be inspected by subcommittee formed by the GC and they will give their report during the 4th GC meeting and then venue will be decided on the basis of merit and facilities.
